

2 NEW MODELS: WE EXPAND OUR RANGE

September 2020 - Iguana Coupé & Iguana Sport

Our range is extending with new additions to the Classic line. We are launching 2 new models to meet with customer needs. A very stylish and beautiful Iguana Coupé, a classic and comfortable Iguana Sport. We decided to add those two boats to our range to respond to the high demand for classic boats with the added benefit of going on land thanks to the Iguana Mobility System. The Commuter was our first ever cabin cruiser, with the Iguana Coupé we provide a new variation of a beautiful cabin cruiser. After the launch of the Iguana Knight, there was a high demand for a hard hull boat with the same comfortable layout. We decided to create the Iguana Sport, a very sporty, chic and sleek boat.

ABOUT IGUANA YACHTS

Since its creation in 2008, Iguana Yachts' raison d'être is simple: make boating effortless and safe. Iguana was created to build boats that are disruptive and provide bespoke experiences. Innovative amphibious boats, hand built in Normandy by a highly experienced team of designers, engineers and craftsmen. The unique design of the amphibious tracks allows the Iguanas to smoothly climb a wide variety of terrains from soft sand and wet mud to uneven rocks and pebbled beaches. Iguana Yachts has boats all over the world across six continents used for yacht tenders, waterfront properties, private islands, hotels and resorts.
